

High School Report Cards – Health & PE 10 ONLY

Reporting Parameters:

- Students that transfer out of a class five days prior to the end of a marking period will receive the marking period grades from the dropped teacher. This is a district setup.
- Exam grades are entered in the gradebook as an assignment with the category defined as EXAM.
- Teachers may begin the process of loading for report cards at any time. Teachers should not rely on the check mark displayed on the report card icon as indicators of completion.
- For the 2016-2017 school year, all components of the report card must be completed by the following dates:
 - MP1 – November 10
 - MP2 – February 2
 - MP3 – April 18
 - MP4 – June 16 (high school buildings)
- For the 2016-2017 school year, the division will transition to the next marking period on the following dates:
 - MP2 – November 15
 - MP3 – February 6
 - MP4 – April 20
- If a teacher makes changes to assignment scores after the grades have been loaded for report cards and the division has not moved to the next marking period, the teacher will need to reload grades. Reloading after changes are made will update the report card to reflect the new average and allow the new average to be used in the semester and final calculations.
- Teachers will have access to update assignment scores for any prior marking period. Once the division moves forward to the next marking period, however, teachers no longer have access to load for a prior marking period. If a teacher makes changes to any assignment that result in a change to a student's numeric average in a prior marking period, the teacher must complete a grade change form and notify the office. Even if the student's letter grade does not change the office must be notified or the new average will not be used to calculate semester or final grades. Only the office can load for prior marking periods once the division moves to the next marking period.

Enter the Driver's Ed MP1 or MP2 and Final Competency Grade

Complete this section in MP1 and MP2.

1. Enter all scores for all assignments that will be included when calculating the Driver's Ed marking period average in all courses.
2. Enter the grade book for the first course by clicking on the gradebook icon. 
3. Using the  Actions/Reports pull-down menu, generate and then print the Printable Gradebook report.
4. Use the **Change** button  to navigate to the next course and continue generating and printing a Printable Gradebook report for each course.
5. Retain the Printable Gradebook report for each class in MP1 so that the final Driver's Ed grade can be calculated at the end of MP2.
6. Navigate to the Competency entry screen for the first course by clicking on the Competency Icon  to the right of the course name.

7. Make sure the Competency Group is set to Driver's Education. 
8. Use the Printable Gradebook report to manually enter the MP Driver's Ed letter grade for each student. For the Final grade use the MP1 and MP2 Printable Gradebook report to calculate the final average. Manually enter the appropriate letter grade for the final Driver's Ed grade.
9. Click .
10. Use the **Change** button  to navigate to the next course and repeat step 8 and 9 until all Driver's Ed Competency grades are entered for all students in all courses.
